

SOLAR REFERRAL PROGRAM

“AN EASY & EXCITING WAY TO EARN SOME EXTRA MONEY”

How? Simple, you as a solar owner or even if you are non-solar owner, have family, friends, neighbors or business associates that have talked or mentioned to you about solar for their home. You can help them on their solar journey by referring us to them. We are locally based and preferred partners with some of the nation’s top solar companies.

The next step is easy. Give them our company contact information you see below. Contact us with their name so we can connect you to them. We will contact them by phone or text. Then we coordinate a time with them to present our exciting solar programs. Should they sign up for a solar installation, your name is registered as the one who referred.

The referral bonus. Approximately one month after their installation a Visa gift card of \$200 is issued to you. Sweet!

It is my personal goal as a Solar Specialist is to be honest to your referral.

You know that monthly and in the long run, solar is a sensible hedge against the ever-increasing electric rates we have no control over, we will present this to them during their meeting.

I am not a ‘salesman’ I am an energy specialist and expert with considerable training.

We schedule a Discovery meeting to present to your referral, their free Solar Savings report,

We show this personalized energy analysis & proposal that detail the \$\$ savings .

Afterwards, I am confident that your referral will be equipped to make an intelligent decision. Tell them no “pressure” at this meeting.

Solar owners tell us unequivocally, “We love our solar” and “Solar is saving us money”.

One solar owner jokingly told me “You’re crazy if you don’t have solar in Arizona”.

Note: We partner with **Element Energy Co.** Other companies named “Element Energy” located in CA, UT & FL have gotten numerous bad reviews not representing solar well. We have no connection with them. We are based and operate only in Arizona **with over 25 excellent ratings:** For more reviews go to this Google link and click on Google Reviews: <http://g.co/kgs/jM5n3b>

I was really impressed with this company. Element was so great at explaining everything I needed to know about solar. They are clearly taking steps to make sure their representatives are well informed. I like that they were patient with me and willing to go the extra mile.

Response from the owner

Thanks Carrie! We pride ourselves in making sure our clients have a great experience.

I had solar at a home where I lived in the past. I was interested in looking for solar at my new home. Danny at Element Energy helped me get a system for much less money than what I paid before! I have already recommended 3 others.
