I was really impressed with this company, was so great at explaining everything **Response from the owner** a month ago

Thanks Carrie! We pride ourselves in making sure our clients

have a great experience.

Broc did a great job helping us get our Solar Energy, the crew did an excellent job on the installation, and we're thrilled to be using Solar Energy.

God Bless Them all.

I had solar at a home where I lived in the past. I was interested in looking

for solar at my new home. Danny helped me get a system for much less money than what I paid before! I have already recommended 3 others.

We recently had solar installed and are very happy with the work they did. Danny Pickett spent a lot of time with us to make sure solar was worth it for us. Thank you so much!!!

Overall we are very happy with our new solar system. The guys were all great to work with!
 Our system was unique because it is on a ground mount but everything turned out better than expected!

OUTSTANDING

I was not a fan of Solar years ago and turned many representatives away at the door. However, with inflation, I was curious and did more research on this. Danny was very patient and knowledgeable. After many questions, it seemed worth my time and money to try it out. Needless to say, it is impressive at not only how smooth the process was, but the monthly savings is my wife's favorite part! If you are considering, contact Element Energy Co. today.

We had met with other companies about solar many times. We had a lot of questions, because we have been thinking about solar for a while. Element Energy took the time to answer all of our questions and we are very satisfied with our choice to go solar with them!!

HIGHLY recommend this company for the following reason: I have Tesla solar panels on my home,
 but not a sufficient number to make it net zero energy. Danny Pickett, the company's owner, came to
 my house today at my request to discuss adding additional panels. After a one hour discussion of my
 current costs (which are very high due to the exorbitant Tesla lease entered into by my home's previous
 owner) and the cost of new panels, he talked me OUT of adding panels, because it would take more than
 my life expectancy to break even. (This is due to my particular tax situation, and does not take into
 consideration the solar tax credit that most people would qualify for.)

Who does such a thing? Who talks an eager customer out of spending a substantial amount of money because it would not benefit her? A reputable company with a truly honest owner, that's who.

(Owner)

Pat, thank you so much for your kind words. We try to create a corporate culture where our clients' needs come first, not our pocketbooks. That goes for all of us, from the top down! We are glad we could help in any way.

Our experience was one that has us recommending them to other people in the neighborhood. Our representatives were professional and were there to get the right system for us. Without hesitation I recommend for your solar needs, or even if you are just curious about a system, they are ones to talk to.

Solar is a complicated program to understand. Element Energy has been VERY helpful for me to understand clearly what we should do. I wish I could give then 10 stars!

★ I live in Arizona and there's time when it gets hot really hot and that mean are electricity bills go sky high. I'm in my late 60s and on fix income and was barely getting by in life till one day i ran into Mr Broc McCurdy he showed what solar power can do for me and family he took time to explain and go over how the solar system works.

I believe I made the best decision of installing 34 solar panels at no COST out my pocket for my house. I highly recommend this to any home owners or any commercial buildings.

Staff and service was top notch. Everything went as it should from the beginning to the end of the project. They are friendly, professional, and honest all the way through. I definitely recommend these guys if you are looking to go solar.

Joey H.

I definitely would recommend Element Energy services to anyone who looking for a company that would take the time to make you feel like family and make sure you have an actual clear understanding on how it all works.

They walked me step by step on how to use and get my tax breaks and helped me understand which system would work best for my financial situation ... Thank you.

Tito R.

Great job exceeded my expectations! Would definitely hire again for another job!

Solar installation

My sister Pat and I were very pleased with the solar installation. They worked diligently and finished the project in great time. Our coordinator, Karen kept us informed every step of the way. She made it so easy for us to understand the process. Also, OWE was the only company that would install solar on our manufactured home.
