

SENSIBLE SOLAR AZ™

SUN CITY SOLAR AZ™

Sensible Solar Az
Business ID: 1000036348
BBB Rating: A+

Our simple 3 step process to get solar after you've submitted our "Free Solar Quote Form"

In one hour, less time than a tv movie, we show why going solar is always a sensible and smart decision.

Step 1:

From your contact information, our energy specialist reaches out and gathers your monthly utility usage: total kWh and billed costs. This provides a basis to build your personal energy profile.

Incorporating this information with satellite imaging of your roof, solar mapping, and specifics about your lifestyle and aspirations, our engineering team uses Aurora™ the most sophisticated solar program anywhere coupled with years of CAD experience to create a custom system that generates 100%+ of your energy requirements to 'future proof' against utility rate hike, detailed Solar Savings Report (SSR) is created.

Step 2:

We arrange a convenient time for a casual discovery meeting in your home where we present the SSR findings and the custom system designed specifically for your home. This in-person time is educational and informative. We welcome to voice any concerns and 'hard' questions you have about solar.

The majority of home owners find our presentation to be really enjoyable.

Step 3:

If you are satisfied with what we have to offer, contracts can be done same day. Our design and installation staff then, starts your project and handle all specifics. As the general contractor we oversee the entire project and keep you updated on all developments, including site inspections, permits, and installation timetable and final turn-on.

We make going solar easy to comprehend and enjoyable.
